Body Outside Diameter:

9.875 inches

Body Inside Diameter:

8.500 inches

End Application:

1440-01-444-4239, launching station, guided missile, sem. W/s: multiple launch rocket system (mlrs).

Structural Design:

Thinwall

Features Provided:

Support bracket

Measuring Method And Length:

11.000 inches working

Product Name:

Conduit, metal, rigid

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A02700
