Inside Diameter:

0.625 inches

Material Thickness:

0.125 inches

Body Length:

Between 8.190 inches and 8.310 inches

End Application:

Ot-20 (v) /g, transmitter group

Inscription:

80063-a3273457-001 (with mfr's cage) 1st side

Product Name:

Sleeve, cable support bar

Special Features:

Part number begins approx. 1 in. From left end

Material:

Plastic

Material Specification:

Astm d4066, nylon 6/6 assn standard single material response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A529q0
