Overall Length:

19.000 inches

Overall Width:

15.500 inches

Overall Thickness:

0.250 inches

End Application:

Oa-9233aig, operations group van

Mounting Configuration:

C'sunk hole in each corner 0.258 100 degree to 0.522 inch, also 0.515 hole/4 places

Panel Material:

Aluminum alloy

Product Name:

Adapter plate, fire alarm control panel

Special Features:

Actual matl is per astm b209 specification 5052-h32 and finish per drawing call-out

Surface Treatment:

Paint

Surface Treatment:

Painted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
