End Application:

Nuclear reactor boundry area

Material And Location:

Steel, stainless

Product Name:

Clamp, thrust sensor wire

Special Features:

Item is "t" shaped with a 0.188 inch diameter, countersunk hole, vertically through the center. Viewing from the side, it is 0.970 inches wide and 0.350 inches tall. Viewing from the top, it is 0.420 wide by the previously mentioned 0.970 inches long. The diameter of the countersink is 0.400 inches.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T386-e
