Inside Diameter:

0.125 inches

Material Thickness:

0.013 inches

Body Length:

1.750 inches

Product Name:

High temperature marker sleeves htm (httm)

Special Features:

Material: polyvinylidene fluoride compound

Color:

White

Special Test Features:

Used in high temperature applications up to 200 degrees celcius and space applications where low outgassing is critical

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A529q0
