Thread Length:

13.0 millimeters first end

Product Name:

Emi shielding brass cable glands

Special Features:

Description: 12-21mm dis. Range; 32.5mm mounting hole clearance; 34mm wrench flats; m32 x 1.5 thread type; materials: polyamide insert, neoprene seal; end item nsn: 6640-01-547-1760, petroleum quality analysis system

Material:

Copper alloy body

Surface Treatment:

Nickel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A049a0
