Thread Length:

9.0 millimeters first end

Overall Length:

1.78 inches

Overall Width:

1.96 inches

Product Name:

Emi shielding brass cable glands

Special Features:

End item nsn: 6640-01-547-1760, petroleum quality analysis system; description: 20-26mm dia. Range; 47.5mm mounting hole clearance; 50mm wrench flats; pg36 thread type; materials: polyamide insert, neoprene seal

Material:

Copper alloy body

Surface Treatment:

Nickel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A049a0
