Thread Direction:

Right-hand second end

Thread Length:

0.535 inches first end

Deflection Angle:

90.0 degrees

Hazardous Locations/environmental Protection:

Liquid tight

Conduit Type Accommodated:

Flexible nonmetallic second end

End Application:

Matcals

End Type:

External thread second end

Thread Size:

0.500 inches first end

Product Name:

Fitting, elbow, compression

Material:

Plastic

Thread Series Designator:

Special second end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01800
