Effective Length:

4.03 inches

Material Thickness:

0.06 inches

End Application:

Light armored vehicle

Base Inside Diameter:

Between 0.39 inches and 0.94 inches

Accommodation Hole Inside Diameter:

Between 0.26 inches and 0.68 inches

Product Name:

Boot, right angle

Special Features:

Min/max dimensions are for relaxed and expanded. Material is modified elastomer blend.

Flexibility:

Flexible

Color:

Black

Material:

Elastomer polychloroprene body

Style Designator:

Angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02000
