Mounting Hole Diameter:
0.213 inches
Overall Height:
5.13 inches
Overall Width:
61.25 inches
Material Thickness:
0.747 inches
Mounting Hole Quantity:
12
End Application:
A/e37t-24a
Design Feature:
Punched holes
Product Name:
Bracket, connector mounting
Special Features:
Next assembly 3654as9600-1
Next assembly 3004as3000-1
Material:
·
Material:
Material: Stainless steel
Material: Stainless steel Material Specification:
Material: Stainless steel Material Specification: Astma1008 assn standard single material response
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator:
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange Shelf Life:
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange Shelf Life: N/a
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange Shelf Life: N/a
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange Shelf Life: N/a Unit Of Measure:
Material: Stainless steel Material Specification: Astma1008 assn standard single material response Style Designator: Flat with single flange Shelf Life: N/a Unit Of Measure: Demilitarization:
