Thread Direction:

Right-hand second end

Overall Length:

1.312 inches

Distance From Outside Edge Of First Packing Chamber To Edge Of Mounting Flange:

0.812 inches

End Application:

Wide band emi

Width Across Flats:

1.031 inches

Mounting Method:

Bushing

Thread Size:

0.750 inches second end

Product Name:

Liquid tight cordgrips

Special Features:

The grommet is blue. The accommodated cable diameter range is 0.350 to 0.450 inches. The hole to accommodate the bushing will be a round hole, 1.109 inches in diameter.

Material:

Stainless steel body

Surface Treatment:

Zinc body

Style Designator:

Plain-single-shallow

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A049a0
