Body Style:

Rectangular commutator

Width:

0.250 inches

Thickness:

0.156 inches

Length:

0.438 inches

Contact Face Style:

Concave

Material:

Metal graphite

Material Specification:

Morganite inc, gr c-5h mfr ref single material response

Style Designator:

One piece

Reference Number Differentiating Characteristics:

As differentiated by the optional markings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01500
