Body Style:

Angular formed strip

Beam Width:

0.312 inches

Beam Thickness:

0.010 inches

Cantilever Length:

1.526 inches

Mounting Portion Length:

0.688 inches

Special Features:

Thickness 0.010 in.

Material:

Phosphor bronze

Material Specification:

Qq-b-746, comp a federal specification single material response

Style Designator:

Single beam cantilever

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01500
