Body Style:
Angular formed strip
Beam Width:
0.312 inches
Beam Thickness:
0.010 inches
Cantilever Length:
1.526 inches
Mounting Portion Length:
0.688 inches
Special Features:
Thickness 0.010 in.
Material:
Phosphor bronze
Material Specification:
Qq-b-746, comp a federal specification single material response
Style Designator:
Single beam cantilever
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A01500
