Body Style:

Rectangular commutator

Width:

1.250 inches

Thickness:

0.500 inches

Length:

1.250 inches

Contact Face Style:

Beveled

Bevel Angle:

6.0 degrees

Material:

Copper graphite

Material Specification:

National carbon grade 456 mfr ref single material response

Style Designator:

One piece

Terminal Type And Quantity:

1 straight w/hole

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01500
