Inside Diameter:

1.000 inches

Overall Length:

1.560 inches

Overall Height:

0.250 inches

Overall Width:

1.250 inches

Distance From Mounting Surface To Locking Device:

0.080 inches

Mounting Facility Type And Quantity:

4 self-locking nut single mounting facility

Special Features:

Plate contains 4 mounting holes 0.328 to 0.331 in. In diameter, holes are 1.125 in. Apart center to center along length and 0.812 in. Apart center to center along width, corners of the plate are beveled 0.060 in at a 45 degree angle, diameter of aperture is 0.800 to 0.810 in. With a flange 0.110 to 0.130 in. Wide and 0.080 in. Deep, below the flange the aperture is beveled at a 45 degree angle from 0.910 to 0.920 in. In diameter to 0.680-0.690 in. In diameter

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment Specification:

Mil-c-5541, cl 3 military specification single treatment response

Style Designator:

Cylindrical w/locking device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A062a0

Mil-std (military Standard):

Mil-c-5541 spec.
