Width:

0.625 inches

Thickness:

0.875 inches

Length:

1.500 inches

End Application:

Automated remote tracking station (arts)

Special Features:

Brush grade t563; top bevel 15.000 in., bottom bevel 5.000 in., bottom radius 2.500 in.

Material Specification:

National grade t563 mfr ref single material response

Style Designator:

Split

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01500
