Body Style:

Curved formed strip

End Application:

Oe-571 rcs an

Beam Width:

0.860 inches

Beam Thickness:

0.170 inches

Cantilever Length:

2.000 inches

Special Features:

Has brush spring and lead assembly with green lead wire: no. 16awg, type 'ee', polytetrafluoroethylene coated per mil-w-1687815, min. 12 inches long

Material:

Any acceptable

Style Designator:

Single beam cantilever

Supplementary Features:

Needs to be paired with p/n 46875 - same piece with orange lead; each piece is called: brush ring segment assembly, qt-6208

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01500
