

View Online at <https://aerobasegroup.com/nsn/5980-00-251-7553>

Special Features:

Caution; shade optictube to prevent bright light from penetrating

General Description:

With 1.50 p or m .05 ma dc flowing through sensor, the dc resistance across the photo resistor shall be 38.0 p or m 4.0 k oms; when the current flow is decreased to 0.80 p or m.05 ma dc the resistance across the photo resistor shall 100.0 k ohms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
