Overall Height:

0.270 inches

Overall Diameter:

0.230 inches

Semiconductor Material:

Gallium arsenide phosphide

Special Features:

Visible light source; plastic body; maximum power dissipation at 25 degrees c is 180 mw; m 55 to p 100 degrees c operating and storage temp range

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A110a0
