Maximum Operating Temperature Per Measurement Point:

100.0 degrees celsius ambient air and 100.0 degrees celsius junction

Special Features:

Green diffused; forward current 40 ma; power dissipation 100 mw; peak fwd current 1 a; peak reverse voltage 3v; intensi type 1.0 mcd typical; molded plastic case w/tinned or silver plated copper terminals; gallium phosphide mal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
