Maximum Operating Temperature Per Measurement Point:

85.0 degrees celsius ambient air

Special Features:

Yellow; common cathode right hand decimal; 7 segment displays; 50 mw maximum dc power dissipation per segment; lead frame dip pkg;

0.750 in. Lg

Terminal Type And Quantity:

14 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
