Special Features:

Orange epoxy; common cathode; encapsulated; 400 mw maximum power dissipation; orange face with white sides case; solder dip 14 pin type terminals; m 40 degrees c operating and storage temperature range; 50000 hours operating life; 19.3 millimetres o/a lg; 10.16 millimetres w

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504q0
