Overall Length:

0.750 inches

Overall Height:

0.180 inches

Voltage Rating In Volts Per Characteristic:

12.0 forward voltage, dc

Current Rating Per Characteristic:

150.00 milliamperes source cutoff current preset

Power Rating Per Characteristic:

300.0 milliwatts small-signal input power, common-collector preset

Maximum Operating Temperature Per Measurement Point:

85.0 degrees celsius ambient air

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
