Storage Temperature Range:

-62.0/+70.0 degrees celsius

End Application:

Comm central e/i fscm 95104

General Description:

A led and a triac driver; total device maximum rating; isolation surge voltage 7500 v ac; total power dissipation 330 mw; 0.320 in. to 0.350 in. Maximum lg; 0.240 in. to 0.260 in. Maximum w; 0.050 in. to 0.080 in. Maximum h; 6 lead type terminals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
