General Description:

Coupled infrared emitting diode; silicon phototransistor; 0.010 in aperature; gap 0.125 in; two wire leads 0.20 square; 0.250 in wide; 0.970 in long; 0.970 in high; two 0.125 in mtg holes 0.750 center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
