Storage Temperature Range:

-55.0 to 125.0 degrees celsius

General Description:

Optically coupled isolator solid state; vceo and vcbo 35.0 maximum volts; if 40.0 ma dc; power dissipation pt 300.0 mw; operating temperature range fr0m minus 55.0 degree celsius to plus 125.0 degree celsius junction temperature; 0.185 in. Maximum lg; 0.370 in. Maximum dia; six wire type terminals 0.500 in. Maximum lg; collector connected internally to case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
