General Description:

Temp m55 to p125 degrees celcius; gallium arsenide infrared emitting diode, npn silicon phototransistor, hermetically sealed; 0.370 in.

Maximum dia; 0.185 in. Maximum h; 0.600 in. Maximum terminal lg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
