Inclosure Material:

Plastic

Overall Length:

7.62 millimeters

Overall Height:

2.03 millimeters

Overall Width:

2.08 millimeters

Lens Transparency:

Translucent

Mounting Method:

Terminal

Semiconductor Material:

Gallium phosphide

Voltage Rating In Volts Per Characteristic:

2.7 forward voltage, dc and 50.0 reverse voltage, instantaneous

Color Tone Produced Per Source:

Green lens

Luminous Intensity:

0.6 millicandela

Terminal Type And Quantity:

2 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
