**Overall Length:**

0.312 inches

**Overall Height:**

2.500 inches

**Overall Width:**

1.500 inches

**Major Components:**

Light emitting diodes 4, display board 1

**End Application:**

An/sps-64 fc.16

**Usage Design:**

Bezel assembly

**Mounting Configuration:**

Two 0.156 in. Dia. Mtg holes centered 0.125 in. From top or bottom of display board

**Special Features:**

Display board engraved on left of leds designating master, slave, mtr1, and mtr2

**Fsc Application Data:**

Radar set, navigation, shipborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T01200
