Overall Length:

0.312 inches

Overall Height:

2.500 inches

Overall Width:

1.500 inches

Major Components:

Light emitting diodes 4, display board 1

End Application:

An/sps-64 fc.16

Usage Design:

Bezel assembly

Mounting Configuration:

Two 0.156 in. Dia. Mtg holes centered 0.125 in. From top or bottom of display board

Special Features:

Display board engraved on left of leds designating master, slave, mtr1, and mtr2

Fsc Application Data:

Radar set, navigation, shipborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
