Inclosure Material:

Plastic

Semiconductor Material:

Gallium arsenide phosphide

Voltage Rating In Volts Per Characteristic:

5.0 reverse voltage, average

Current Rating Per Characteristic:

60.00 milliamperes forward current, average preset

Color Tone Produced Per Source:

Yellow semiconductor

Luminous Intensity:

1.5 microcandela

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
