Overall Length:

6.735 inches

Overall Height:

5.585 inches

Overall Width:

2.652 inches

End Application:

Tsc-107

Character Type:

Computer like and numeric

Voltage Rating:

28.0 volts

Line Quantity:

2

Display Type:

Liquid crystal

Display Color:

Green

Special Features:

Plcd display module; transfectivepositive image polarizer; el-backlight; operating temperature, minus 20 deg.C to +70 deg.C.; storage temperature, minus 40 deg.C. To + 85 deg.C.; black letters with silver background

Terminal Type And Quantity:

26 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504q0
