Overall Length:

5.12 inches

Overall Height:

2.44 inches

Overall Width:

5.00 inches

Lens Color:

Red 1st row 1st position vertical

End Application:

2320-01-380-8604

Lamp Type Accommodated And Quantity:

2 light emitting diode

Product Name:

Led light assembly, marker, service

Special Features:

The light assembly shall illuminate without dimming or flickering when connected to 22-34 vdc power source, operating voltage shall be 28.0 vdc

Functional Description:

Cold temperature operation: -50f, high temperature operation: 165f

Material:

Aluminum lens holder

Special Test Features:

The light assembly is intended to be used as a marker, clearance, or identification light, and shall consist of a base containing the light emitting diodes and a removable housing

Supplementary Features:

Lens color: red

Specification Data:

96906-dod-std-00100 (ar) government standard and 80204-ansi y14.5m-1982 professional/industrial association standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
