Overall Length:

3.900 inches

Overall Height:

0.920 inches

Overall Width:

2.900 inches

Current Rating:

67.000 milliamperes

Voltage In Volts And Current Type:

12.0 dc

Special Features:

2000 volts rms for 1 minute optical isolation of data lines; 6.5 working peak voltage, bi-directional over voltage suppressor, 600w peak power dissipation, 3000 picofarads capacitance; operating temperature minus 40 degrees c to plus 80 degrees c; power plus 10 to 30v, dissipates 800 milliwatts max; humidity rating 0 to 95 percent non-condensing; baud rate 9600.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
