**Overall Length:**

3.900 inches

**Overall Height:**

0.920 inches

**Overall Width:**

2.900 inches

**Current Rating:**

67.000 milliamperes

**Voltage In Volts And Current Type:**

12.0 dc

**Special Features:**

2000 volts rms for 1 minute optical isolation of data lines; 6.5 working peak voltage, bi-directional over voltage suppressor, 600w peak power dissipation, 3000 picofarads capacitance; operating temperature minus 40 degrees c to plus 80 degrees c; power plus 10 to 30v, dissipates 800 milliwatts max; humidity rating 0 to 95 percent non-condensing; baud rate 9600.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
