Overall Length:

4.500 inches

Overall Height:

2.700 inches

Overall Width:

3.500 inches

End Application:

Mv103acs (72197), compass, digital magnetic f/gate mv. Mv103dg (72197). Magnetic compass, digital, flux gate mv103ac

Character Type:

Numeric

Display Type:

Light emitting diode

Special Features:

Weight: 17 oz, mean time between failure: 105542 hours, part name assigned by controlling agency: led main display

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A504q0
