Overall Length:
4.500 inches
Overall Height:
2.700 inches
Overall Width:
3.500 inches
End Application:
Mv103acs (72197), compass, digital magnetic f/gate mv. Mv103dg (72197). Magnetic compass, digital, flux gate mv103ac
Character Type:
Numeric
Display Type:
Light emitting diode
Special Features:
Weight: 17 oz, mean time between failure: 105542 hours, part name assigned by controlling agency: led main display
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A504q0
