Overall Length:

0.630 inches

Overall Diameter:

Between 0.280 inches and 0.290 inches

Lens Transparency:

Translucent

Mounting Method:

Press fit

Voltage Rating In Volts Per Characteristic:

6.9 forward voltage, dc

Current Rating Per Characteristic:

50.00 milliamperes source cutoff current preset

Color Tone Produced Per Source:

Yellow lens

Luminous Intensity:

24.0 millicandela

Product Name:

Multi-chip led's

Special Features:

Operating temp. Range: -10 degrees to 70 degrees celsius, negative polarity.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
