Storage Temperature Range:

-40.0/+70.0 degrees celsius

End Application:

An/frt-31, transmitting set, radio

Product Name:

Fiber-optic photoelectric sensor

Special Features:

Supply voltage: 10-30vdc, current consumption: 35ma max, light source: pulse-modulated red led (660 nm),

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
