Overall Length:

1.100 inches

Overall Height:

1.300 inches

Overall Diameter:

0.781 inches

Lens Transparency:

Transparent

End Application:

An/frt-31, transmitter set, radio

Mounting Method:

Press fit

Voltage Rating In Volts Per Characteristic:

120.0 forward voltage, average

Color Tone Produced Per Source:

Green semiconductor and green lens

Product Name:

Et-16 light emitting diode

Special Features:

Fresnell lens on inside surface; lens height is 0.561 in.

Terminal Type And Quantity:

1 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
