**Product Name:**

Optically coupled isolator

**Special Features:**

10-72 hermetically sealed package; 1 kvdc electrical isolation; high current transfer ratio; consists of an infrared emitting diode and an npn silicon phototransister; -55 to 125 degrees c operating and -65 to 150 degrees c storage temperatures

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
