Inclosure Material:

Plastic

Overall Length:

0.138 inches

Overall Height:

0.065 inches

Overall Width:

0.110 inches

End Application:

C-17a aircraft

Mounting Method:

Press fit

Semiconductor Material:

Gallium arsenide

Voltage Rating In Volts Per Characteristic:

5.0 reverse voltage, average

Color Tone Produced Per Source:

Red semiconductor

Luminous Intensity:

18.0 millicandela

Special Features:

Non-diffused, red led with 60 degree viewing angle. High intensity smd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
