End Application:

Nuclear power plants

Character Type:

Computer like

Display Type:

Liquid crystal

Display Color:

Gray

Special Features:

A4sb with improved emi; frame is grounded; has internal ground plane layer; has brightness, contrast control; diagonal size: 10.400 in; thickness: 20.0 mm; pitch: 0.33 mm; 15.6 watts; operating temp: 0.0-p55.0 deg. C; video interface: 4 bit or 8 bit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504q0
