Overall Length:

1.677 inches

Overall Height:

0.363 inches

Overall Width:

0.771 inches

End Application:

Computer peripherals, industrial instrumentation; medical equipment; pda's; cell phones; test equipment; telecom equipment

Voltage Rating:

5.5 volts

Control Type:

Decoder

Inclosure Configuration:

Dual-in-line

Special Features:

X-stackalbe; 128 character ascii decoder; programmable functions; wave solderable; ttl compatible cmos ic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504p0
