Overall Height:

6.1 millimeters

Overall Width:

6.1 millimeters

Voltage Rating In Volts Per Characteristic:

12.3 base supply voltage

Product Name:

Led cbi circuit board indicator sloped back housing with standoffs

Special Features:

Color red, peak wavelength 635 (nm), volts 2 (vf), test current 20 (ma).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A110a0
