Overall Height:

6.1 millimeters

Voltage Rating In Volts Per Characteristic:

12.3 base supply voltage

Product Name:

Led cbi circuit board indicator sloped back housing with standoffs.

Special Features:

Color green, peak wavelength 56 (nm), volts 2.1(vf), test current 20(ma) .

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
