Lens Transparency:

Translucent

End Application:

2355-01-481-8570

Voltage Rating In Volts Per Characteristic:

2.0 forward voltage, peak and 2.5 forward voltage, peak

Luminous Intensity:

Between 12.5 microcandela and 32.0 microcandela

Product Name:

Diode, light emittin

Special Features:

Description: surface mount, bi-color leds; contract control no.: cbctaa

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
