Overall Length:

6.022 inches

Impedance Rating In Ohms:

50.0

Special Features:

3.125 in. Flange each end

Material:

Brass and copper

Material:

Copper alloy and copper

Precious Material And Location:

Inner conductor plating silver

Precious Material:

Silver

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-a
