Application Design:

Waveguide

Body Material:

Brass

Body Surface Treatment:

Silver plated

End Application:

5895-00-885-2273, landing control central, an/mpn-14

Voltage Standing Wave Ratio:

1.000 and 1.10

Power Rating:

0.5 milliwatts average

Terminal Type And Quantity:

2 flange

Frequency Range:

Between 9.000 kilohertz and 9.160 kilohertz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A20000
